

EVEREST EXPEDITION SUMMIT BOOST-(SOUTH) NEPAL

[8848.86M.] - WITH LOBUCHE PEAK - 2026

This Everest Expedition Summit Boost allows you to climb the highest mountain in the world assisted by 2 Sherpa guides, more oxygen bottles, preparation climb on Lobuche peak, a recreational Helicopter flight, and an enhanced overall service.

TRIP FACTS:

PEAK NAME MT. EVEREST (SAGARMATHA)	SERVICE FULL BOARD (1:2 SHERPAS)	COUNTRY NEPAL
DURATION 53 DAYS	ROUTE S-COL; SE-RIDGE	GRADE HARD DIFFICULT
RANGE MAHALANGUR	BEST SEASON SPRING	MAX ELEVATION 8848.86 M
WALKING PER DAY 5-7 HOURS	NATURE HOTEL + LODGE + TENT	GROUP SIZE 2-15 PAX
ARRIVAL 12 APR 2026	DEPARTURE TO LUKLA 14 APR 2026	TRIP ENDS 03 JUN 2026

REQUIRED EXPERIENCE:

Experience in mountaineering (6000 m. /7000 m. /8000 m.) is recommended and required to sign up for this expedition.

LOBUCHE PEAK (6119 M.) FOR EXTRA ACCLIMATIZATION

This upgraded package comes with the acclimatization climb of Lobuche Peak (6119 m) en route to Everest Base Camp. This climb is a great way to ensure you are well-acclimatized before you start the Everest Expedition.

OVERVIEW:

Ask an adventurer about their dream, and they will answer you with a word; EVEREST. Who would not want to reach the top of the world? Who would not want to touch the sky? It's the trip of a lifetime, the Everest Expedition. Mt. Everest is the highest mountain in the world and is located in the Himalayas, on the border between Nepal and China. Mt. Everest, also known as Sagarmatha in Nepal and Chomolungma in Tibet (China), is the tallest peak on Earth with an altitude of 8848.86m. The southwestern face lies in Nepal, whereas the north and east faces are in Tibet. In 1715, China surveyed the mountain for the first time while they were mapping Chinese territory and depicted it as Mount Qomolangma. The Great Trigonometrical Survey identified it initially as Peak XV and officially revealed its elevation as the highest mountain in the world at 29,002 ft. in 1856.

Peak XV was renamed as Mount Everest by Sir Andrew Waugh in 1865 after failing to find any local names of the peak. The mountain was named after Waugh's senior and former Superintendent of the GTS Sir George Everest. Sir George was a Welsh Surveyor; he was the surveyor-general of India for thirteen years from 1830. Mt. Everest has fascinated mountaineers all around the world since the 1920s when Tibet opened climbing expeditions on Everest. In 1921, the first reconnaissance expedition to Everest was undertaken. The expedition despite its initial hardship, eventually

found a viable route to the summit which to this date is considered as the standard climbing route from the north side. In 1922, a full-fledged British Expedition team led by Charles Bruce tried to scale Everest. It was Edward Norton in his second attempt along with the British Expedition team that set the height of 8572m. The mountaineers George Mallory and Andrew Irvine disappeared on the third attempt in 1924. Mallory's body was found 75 years later in 1999. There were several attempts made to Everest before the successful attempt made by Sir Edmund Hillary and Sherpa Tenzing Norgay on 29 May 1953 via the South (Nepal) route. It is now reported that around 1000 ascent attempts are made every year.

Mount Everest Expedition is undoubtedly a lifetime opportunity. Nevertheless, these expeditions encounter many hindrances such as high altitude, severe weather conditions, and avalanches. One must be well-trained before actually trying it. You need to get your body ready for the 8848.86m climb to Everest's summit. Depending on your current level of fitness, you need to train for several months before you start your ascent. A climber must build his/her cardiovascular strength along with muscular strength; oxygen level drops by 60-70 percent from sea level. Also, make sure you can carry big backpacks to the top as you will be carrying a cylinder of oxygen and large bag packs along with you. One must acclimatize to weather conditions and be prepared for rock falls,

and avalanches. Learning rescue techniques would be an added advantage.

Seven Summit Trek's Everest expedition will begin in the first week of April starting from Kathmandu. We will take the southern route to the summit. You will have a couple of days for the preparation of goods, equipment and paperwork. Afterward, you will take a flight to Lukla from where the real treks start to base camp which takes around 7 days on foot as per the program. This trip suits those who have previous experiences with a few 7000m peaks or even more. To ensure a higher chance of summing with proper acclimatization and climbing experience, the Everest expedition comes with a preparatory Lobuche (6119 m) ascent prior

to the Everest attempt. We will move on to Camp I (6,065m) where we will see the vast extent of Khumbu glacier. Khumbu Glacier is around 450m on a gradual slope to Camp II (6,750m) and around 610m to Camp III (7,300m). Camp III is located at the head of Lhotse face. From this point onwards, you will need supplemental oxygen. You will reach Camp IV (7,906m). Generally, the elevation above the elevation of 8000 m is referred to as the death zone.

Our Airbus, Heli Everest will all the time be supporting our team by supplying fresh - fruits, vegetables, meats, and other food items almost every day, and it's also always ready for your safety at your needs.

" We await to serve you our service and share our experience with you "

EVEREST CAMP-III 7300M.

HIGHLIGHTS OF THE TRIP:

1. 12 April - 03 June
2. A climb to the top of the world
3. 1 Climber: 2 Sherpa Guides
4. Experience the beautiful Lobuche Peak Climbing (As an acclimatization)
5. 7 Bottles of Oxygen per climber & 3 Bottles of Oxygen per Sherpa
6. 1 Set of Oxygen Mask and Regulator
7. Full Board services
8. 1 Helicopter flight from BC to Namche during the expedition for rest and rejuvenation
9. Experience the thrill of the Khumbu Icefall climb
10. Stunning panoramic view from the summit that comes with sights of mighty 8000ers like Lhotse, Makalu, Cho Oyu, Kanchenjunga, and Shisha Panga
11. Experience the natural beauty of the Himalayas: from the subtropical to Alpine climate and biodiversity
12. Experience the unique culture of the Himalayan heartland of Khumbu
13. Explore the dramatic one-of-a-kind geography in the world

WHY CLIMB MT. EVEREST WITH SEVEN SUMMIT TREKS?

- Highly qualified, professional, friendly, and experienced climbing crew: Sherpa guides, Kitchen staffs, and Basecamp Manager.
- Well-equipped expedition with best-in-class climbing equipment and logistic support for base camp and higher camps.
- Safety is a top priority for us, and we take every step to minimize risks and ensure the well-being of our clients.
- We offer a variety of itineraries to suit different abilities and interests, so you can choose the option that best meets your needs.
- Reliable weather forecast verified from multiple international sources and communication networks in course of the expedition.
- Easy Helicopter charter service when needed (extra charge to be applied)
- 2 climbing Sherpas to each member (1 Member: 2 Sherpa)

ITINERARY:

DAYS	ITINERARY	DATE	MEALS	BOARD
1	Arrival in Kathmandu & Transfer to the Hotel (1400m)	12-APR	-	Hotel
2	Rest in Kathmandu, expedition briefing, and Preparation	13-APR	B/D	Hotel
3	Fly from Kathmandu to Lukla, and trek to Phakding (2,800m)	14-APR	B/L/D	Lodge
4	Trek from Phakding to Namche Bazaar (3440m)	15-APR	B/L/D	Lodge
5	Acclimatization at Namche Bazaar (rest day)	16-APR	B/L/D	Lodge
6	Trek from Namche Bazaar to Dibucho (3870m)	17-APR	B/L/D	Lodge
7	Trek from Dibucho (3,870m) to Dingboche (4243m)	18-APR	B/L/D	Lodge
8	Trek from Dingboche to Lobuche Village (4930m)	19-APR	B/L/D	Lodge
9	Trek from Lobuche to Everest Base Camp (5364m)	20-APR	B/L/D	Tent
10-25	Rotation: [Basecamp – Rotation (Camp I, Camp II and Camp III) – Basecamp]	21 APR - 06 MAY	Full Board High Camp	
26-30	Fly by Helicopter from EBC to Namche Bazaar (Rest and Recovery) and Fly Back to EBC	07-11 MAY	B/L/D	Tent
31-46	The climbing period—align with the optimal summit-push weather window—following the route from Base Camp to Camp II, onward through Camp III and Camp IV to the Everest summit (8,848.86 m), and then back down via Camp II to Base Camp.	12-27 MAY	Full Board High Camp	
47	Cleaning Up Base Camp	28-MAY	B/L/D	Tent
48	Trek from Base Camp to Pheriche (4371m)	29-MAY	B/L/D	Lodge
49	Trek from Pheriche to Namche Bazaar	30-MAY	B/L/D	Lodge
50	Trek from Namche Bazaar to Lukla	31-MAY	B/L/D	Lodge
51	Fly from Lukla to Kathmandu & transfer to the Hotel	1-JUN	B	Hotel
52	Leisure Day in Kathmandu City	2-JUN	B	Hotel
53	Transfer to the International Airport for the final departure	3-JUN	Breakfast	

B= Breakfast, L= Lunch and D= Dinner.

Note: The itinerary can be shortened to 45 days based on the weather conditions and the time frame of the participants. **Lobuche Peak climbing shall be done in between Day 10 -30.**

COST INCLUDES:

1. **ARRIVAL AND DEPARTURE:** Airport - Hotel transfers – Airport (Pick Up and Drop), by private vehicle.
2. **HOTEL ACCOMMODATION IN KATHMANDU:** 4 nights hotel in Kathmandu (4-star category) - single room on bed and breakfast plan.
3. **WELCOME DINNER:** One Welcome Dinner in a tourist standard restaurant in Kathmandu with the Office Staff.
4. **CARGO CLEARANCE:** Assistance for cargo clearance in Nepal's Customs, the clearance cost is subject to a charge.

+ ADD. SERVICES

Add + Island Peak	\$1000.00	Consider climbing Island Peak (6189m) for extra acclimatization. Excludes: Summit Bonus.
Additional Per Sherpa	\$ 9000.00	We will provide you with Two Personal Sherpa during the entire expedition period (1 Member: 2 Sherpa), which is included in the program price. However, if you would like to have another extra personal climbing, you may add it to your program.
Extra Oxygen Per Bottle	\$ 500.00 at BC \$ 700.00 at C1 & C2 \$ 1000.00 at C3 & C4	We allocate enough O2 bottles; however, if you want to purchase extra bottles for extra safety.
Personal Dining Tent	\$ 2000.00	To avoid the pandemic scenario or if you are looking for a quiet and silent time at the base camp, you may request a separate dining and resting tent.
Add. + Lhotse Climb	\$ 16500.00	2 Days extra climbing on the Everest Program, to combine the 4 th highest peak (Lhotse). The cost covers Sherpa support (2 Sherpas), high camp logistics, fixed rope, and additional Oxygen bottles. Excludes: Summit Bonus.
Helicopter - Kathmandu-Lukla - Basecamp - Lukla - Basecamp - Kathmandu	\$ 3200.00 \$ 2300.00 \$ 5200.00	A helicopter ride saves your trekking days. If you would like to use the helicopter riding option (Kathmandu to Lukla, Lukla to Basecamp, Basecamp to Lukla or Namche, or direct to Kathmandu) during the expedition period, please let us know a few days earlier.
Extra Night in Kathmandu	\$100.00	Each Extra Night (except the program) in Kathmandu in a 4/5 Star hotel on a Bed and Breakfast Plan.

EVEREST EXPEDITION ELEVATION PROFILE

ROUTE MAP:

ROUTE CAMPS:

Everest Basecamp (5,400m/17,717ft)

A scenic flight to Lukla and the trek begins, which will lead you to the Everest Basecamp (5,400m). The trek to Basecamp offers a great view of the Mahalangur range, including the vistas of Amadablam, Pumori, Nuptse, and finally, you will be greeted by our best Sherpa team. At EBC, there will be a large number of climbers aiming to scale Everest in their own camps. It has been seen that, among the expedition operators, Seven Summit Treks has the best setup of basecamp with a helipad in close proximity for cargo and rescue convenience. Each member will get a separate member tent and dining (sharing), kitchen, shower, communication, and toilet tents. Before we climb the mountain, we have a big puja ceremony at Basecamp to appease the local deities and pray for good luck and safe climbing.

Seven Summit Treks will have frequent helicopter shuttles to EBC and every single shuttle brings lots of fresh vegetables, fresh meat, and beverages for our members. The base camp will be an elaborate setup with base camp chef, wide menu options, bakery, coffee shop and a great hub for socialization with our other climbers.

Camp I (6,065m/19,898ft)

Once you reach EBC, your climbing Sherpa or team leader will review base and advance training at base camp. You will cross the Khumbu Icefall. This Ice fall is 2,000ft of moving ice. For the best acclimatization, once the rope is fixed by the Sherpa team you will climb to Camp I which lies at the altitude of 6,065m. In this section of climbing, you will encounter mixed terrain with few crevasses and ice on the section of the glacier. This will take you about 4-5 hours of climbing. We will have frequent rotations to Camp I and back to base camp.

The campsite at C1 sits above the vast snowfield of the western cwm. Now from C1 onwards, the tent setup will be 2 members to 1 tent. There will be chef in camp 1 who will provide climbers with warm and fresh meals.

Camp II (6,750m/22,146ft)

Camp II lies at an altitude of 6,750m right underneath the gigantic SW face of Everest. The climbing from camp I to camp is an intermediate ice section with a few mixed climbing parts. In this section of the climb, some rock parts ice walls are to be climbed, and in the middle of the glacier is a bit technical section but there will be a fixed rope. At camp II, there will be SST's fixed dining camp with a kitchen facility so this will be the place where you'll spend most nights after the base camp. In camp 2, the tents will have to be shared at 2:1 ratio (2 members to 1 tent). There will be an expedition chef with dining tents ensuring you fresh meals this high.

Camp III (7,300m/23,950ft)

Climbing from Camp II to Camp III involves climbing a landmark called Lhotse Face. The Lhotse face is steep icy slope to the west of the summit of Lhotse. The ice part is technically demanding with slope ranging from 30 – 45 degrees but since the fixed ropes are put in place, it is safe. Our veteran climbing Sherpas shall guide you through the face to eventually get to Camp III. You will have an overnight stay at Camp III before heading to Camp IV for the final push. In camp 3, tents will have to be shared in the same 2:1 ratio. Due to the positioning of camp 3, it is not feasible to have an elaborate camp setup thus, the meals will be served by Sherpa climbers to each climber.

Camp IV (7906 m / 25,938 ft)

Camp IV, aka the South Col, is probably the world's highest pass. This col connects Everest and Lhotse and is the last camp before the summit of Everest. Camp IV is a vast stretched pass that comes after crossing Geneva Spur above Camp III. There are two rock sections to navigate before camp 4: The Yellow Band, an inter-layer of marble, phyllite, semi schist rock, and the Geneva Spur, an anvil-shaped rib of black stone. Both of these areas are set up with fixed ropes. In climbing, the South Col is also marked as the beginning of the Death Zone (an elevation which doesn't support metabolic processes). You'll make 2 visits of Camp IV – the first one while doing rotations for acclimatization and the final during the summit push. Our Climbing Sherpa team will have already ferried oxygen cylinders and pitched camps for you to be well rested even at this elevation. This elevation is usually isn't for normal human metabolic functions, thus mostly carbs and soups for energy will be consumed which shall be provided to you by your climbing Sherpa.

Summit Push (8848.86 m / 29,032 ft)

With your veteran climbing Sherpa, you'll start pushing for the summit at around midnight. Nights are generally stable for the had push. This is going to be a long night but the joy of seeing sunrise from the highest point of the world washes all fatigue away. You just have to keep pushing. The route passes through the triangular face above the south col to eventually balcony, south summit and finally the dream summit of Everest. The whole world is below you now. After taking some pictures, you will walk down to camp III or camp II, which will take about 5 to 6 hours. Descending from the summit is also a difficult part of this expedition so safe descent is half the job of the day. Seven Summit Treks will have one climbing Sherpa with one member from camp IV to summit day and till back to basecamp. SST's guide will carry oxygen cylinders for members and him/herself. For the safe summit of Everest, SST will always have a guideline of the best weather forecast, communication, and back support from the basecamp leader. Rope fixing up to the summit is the major duty of our climbing Sherpa so we highly admire our Sherpa to fix ropes and make all the effort to get the group to reach the summit of Everest.

EXPEDITION MANAGER:

Chhang Dawa Sherpa: (The man who led the First Winter K2 Expedition)

Chhang Dawa Sherpa, Board Director/Expedition Manager of Seven Summit Treks is the second person among Nepalese who successfully summit 14 mountains of the world that are above 8000 meters. As in previous years, he will be leading the entire team of the SST expedition in Everest (8848.86m), it was a great success in previous years under the leadership of Dawa. His unwavering determination, unparalleled expertise, and deep-rooted respect for the mountains have not only led to personal achievements but also inspired countless aspirants to push their limits in the relentless pursuit of conquering Earth's most challenging peaks. Under his leadership, SST conducted a successful expedition overall of 8000m peaks in Nepal, China, and Pakistan.

GROUND HANDLING:

Mingma Sherpa:

Mingma Sherpa, Chairman of Seven Summit Treks represents the top of mountaineering achievement and logistical expertise, drawing from a wealth of experience in arranging successful ascents on the world's highest peaks. As the first South Asian to conquer all 14 mountains above 8000 meters, Mingma's unparalleled mastery of high-altitude logistics and profound understanding of mountains is second to none. Mingma Sherpa's tenure in ground handling during Everest and multiple 8000-meter expeditions reflects comprehension of the difficult details vital for ensuring expedition success. His years of invaluable experience and unwavering commitment to safety and efficiency make him an indispensable asset, ensuring that each logistical aspect of the Everest expedition operates seamlessly, setting the stage for triumph amidst the world's most challenging terrain.

EXPEDITION GUIDE:

Dorchi Wangdak Bhote

Dorchi Wangdak Bhote, a mountaineering guide embodies the spirit of Himalayan exploration and the essence of mountaineering expertise. With an unwavering passion for the mountains, he stands as an exceptional expedition guide at Everest Base Camp, an example of guidance within towering peaks. Having conquered the mighty Everest summit three times, Dorchi's accomplishments helped mountaineers for successful climbing. Beyond Everest, his mountaineering prowess extends across numerous other formidable peaks, marking him as a seasoned alpinist revered for his vast experience and intimate knowledge of the Himalayas. His presence among aspiring adventurers at the base camp promises not just guidance, but a glimpse into the extraordinary world he has conquered time and again.

EXPEDITION DOCTOR

Dr. Behrouz Moghaddasi

Dr. Behrouz Moghaddasi, an Iranian national and a highly qualified medical professional, is Seven Summit Trek's head expedition medical responder. Dr. Moghaddasi is an expert in emergency medicine, high altitude medicine, wilderness medicine, war medicine, disaster management, and sports physiology. Fluent in Persian, English, and Turkish, Dr. Moghaddasi has extensive training and experience in various emergency response and search and rescue operations, including mountain and wilderness rescue, urban search and rescue, and chemical incident response. With over a decade of experience as the Head of Iranian Search and Rescue Teams and a senior officer at the Iranian Red Crescent Society, Dr. Moghaddasi is well-equipped to handle any medical situation that may arise during the expedition. During the expedition in any Himalayan Mountain, Dr. Moghaddasi maintains routine checkup for each climber and records vitals so the entire team's health remains in finest status throughout the expedition. His participation ensures that you will receive the highest standard of medical care in any emergency.

EQUIPMENT LIST [EQUIPMENT SHALL BE ARRANGED BY CLIENTS THEMSELVES, NOT INCLUDED IN THE PACKAGE COST]

Mountaineering and trekking necessitate thorough preparation, and having the appropriate gear is crucial for a safe and enjoyable experience in challenging outdoor environments. A key component of any mountaineer's gear list is suitable clothing, encompassing insulated layers for warmth, waterproof and windproof outer layers for protection against the elements, and moisture-wicking base layers to manage sweat. In addition to clothing, essential equipment for mountaineering and trekking includes a backpack for carrying gear and supplies, a dependable sleeping bag suitable for expected temperatures, and a sleeping pad for insulation from the cold ground. It is imperative to carefully consider the terrain, climate, and duration of the expedition when assembling a gear list for mountaineering and trekking.

[Gear List for 8000m Peak.](#)

INSURANCE:

There is a fine line between adventure and blatant risk. Mountaineering is an adventure trip that carries an intrinsic danger, and the nature of travel implies things don't generally go according to plan, which is the reason why we require all of our clients to get acceptable and proper insurance.

Due to unanticipated reasons, for example, injury, family issues, work commitments, etc., clients may need to cancel their trip before the start or during the expedition. Considering these factors, it's better to be prepared for the possibilities. As mentioned in the Terms and Conditions of Seven

Summit Treks, the agency is exempt from being liable for different expenses that may occur in case of different emergencies or unforeseen situations. In addition to that, a foreigner isn't allowed to purchase insurance on Nepali soil. Both facts point out the requirement of a client to purchase an elaborate travel insurance plan in their place of origin that protects their interest in case of trip cancellation, helicopter evacuation, medical emergencies, other illnesses, lost luggage, theft, disasters, death, and so on.

You are free to pick your insurer; however, look for an arrangement that covers trip postponement

and cancellation, rescue, and medical as well. Guarantee it doesn't have limitations on the height you will climb, prohibitions on the exercises you are embracing, or the places you will be visiting. Protect yourself with the right insurance so you can go on your expedition with peace of mind and focus more on your climbing.

Please make sure to send us a copy of your insurance policy before you start your expedition so that we can assist you in any case of an emergency.

Please find the details about insurance before buying the policy [here](#).

BOOKING & PAYMENT PROCESS:

If you intend to embark on an adventure through Seven Summit Treks Pvt. Ltd. you are required to book a trip 3 months before the trip. A three months preparation period is necessary to ensure the maximum safety and satisfaction of the clients.

The client must dispense 30% of the total cost, at the time of booking. The advance amount will be used for the necessary booking of hotels, flights, guides, and porters and for receiving approval from governmental authorities. Another 30% of the total charge should be deposited one month before the flight to Nepal. The remaining 40% of the total charge should be paid before you arrive in Nepal, before the start of your adventure.

NAME OF THE BANK:	HIMALAYAN BANK LTD.
ACCOUNT HOLDER'S NAME: (BENEFICIARY)	SEVEN SUMMIT TREKS PVT LTD
ACCOUNT NUMBER: (BENEFICIARY) USD \$	01902853840022
SWIFT CODE / BIC:	HIMANPKA
BANK'S ADDRESS:	HITI DURBAR BRANCH, DURBARMARG, KATHMANDU, NEPAL
MOBILE:	+9779851111187
ZIP CODE:	44600
EMAIL:	INFO@SEVENSUMMITTREKS.COM

After depositing the booking amount into the company's account, we can confirm your registration for our expedition team. You can find all the information about gear lists, itineraries, travel routes, etc., that are required for your expedition on this website, which will help you manage everything needed for your expedition.

Once you sign up for the expedition with SST, you will have a free consultation with our expert team. We will provide information about personalized strategy, customization, progression planning, expert guidance and coaching, insight, and advice on how to accomplish your adventure goals.

Following the initial application process, you will then:

- Send us your passport copy - during booking.
- Send us a copy of your insurance policy - before your arrival.
- Send us your arrival/departure travel details - before your arrival.
- Send us a copy of your physician's report (verified by your doctor stating you are fit to join and exercise yourself at a higher altitude) before your arrival.

Please find the details about our payments, cancellation, and refund policies [here](#).
