DEPARTURE TO KERUNG
10 APRIL 2025

TRIP ENDS
02 JUNE 2025

REQUIRED EXPERIENCE:

Experience in mountaineering (6000 m. /7000 m.) is recommended and required to sign up for this expedition.

OVERVIEW:

Ask an adventurer about their dream, and they will answer you with a word; EVEREST. Who would not want to reach the top of the world? Who would not want to touch the sky? It's the trip of a lifetime, the Everest Expedition. Mt. Everest is the highest mountain in the world and is located in the Himalayas, on the border between Nepal and China. Mt. Everest, also known as The Sagarmatha in Nepali is the tallest peak on earth with an altitude of 8848.86m. The southern face lies in Nepal whereas the northern face is in Tibet. In 1715, China surveyed the mountain for the first time while they were mapping Chinese territory and depicted it as Mount Qomolangma. British Indian government 1856 again measured Mount Everest during their Great Trigonometry Survey. Back then, it was named Peak XV and said to be 8840m tall.

Peak XV was renamed after Sir George Everest as Mount Everest, the name given in his honor, who was a lead surveyor in 1856. Sir George was a Welsh Surveyor; he was the surveyor-general of India for thirteen years from 1830. Everest has fascinated mountaineers all around the globe since the 1920s when Tibet opened climbing in the early 1920s. In 1922 British Expedition team led by Charles Bruce tried to scale the summit of Mount Everest for the first time. It was Edward Norton in his second attempt along with the British Expedition team that set the height of 8572m. The mountaineers George Mallory and Andrew Irvine disappeared on the third attempt. Mallory's body was found in 1999. There were several attempts made to Everest before the successful attempt made by **Edmund Hillary and Tenzing Norgay** on 29 May 1953 via the South route. It is now reported that around 1000 ascent attempts are made every year.

Mount Everest Expedition is undoubtedly a lifetime opportunity. Nevertheless, these expeditions encounter many hindrances such as high altitude, severe weather conditions, and avalanches. One must be well-trained before actually trying it. You need to get your body ready for the 8848.86m-foot climb to Everest's summit. Depending on your current level of fitness, you need to train for several months before you start your ascent. A climber must build his/her cardiovascular strength along with muscular strength; oxygen level drops by 60-70 percent from sea level. Also, make sure you can carry big backpacks to the top as you will be carrying a cylinder of oxygen and large bag packs along with you. One must acclimatize to weather conditions and be prepared for rock falls, and avalanches. Learning rescue techniques would be an added advantage.

The Base camp is situated just below the Rongbuk Monastery. It is about 20 km trek to reach the Advanced Base Camp (ABC). ABC is situated on rugged and fragmented ground with high-speed winds welcoming you. From ABC to East Rongbuk Glacier, it's fairly easy, following the snowy slopes to the North col, you will reach Camp I. The camp I rests between Everest and Changtse. Following long snowy slope, you will reach the camp II. The course from camp II to camp III is very stormy. Topography here is made up of rocks, which look fairly simply, but a slip here means death. However, there are ropes in place, which gives some senses of safety. From camp III, climbers will feel the need of oxygen; the route from camp III to camp IV is mixture of rocky steps. On this way, you will find fixed ropes, which will lead you to right direction to the mountain. Camp IV is small camp; you will want to spend as little time here as possible. You will continue onto the North-East Ridge, where you will encounter the first obstacle known as the first step. First step is rock structure

about 30 meters high. Some steep rock climbing will lead you to second steps; second step is the most challenging of the entire obstacle. This is about 40m in height. Another tough rock-climbing sessions, you will reach to third step. Third step is

the easier of all and has height of 25m. After completing all three obstacles you will land on Summit Pyramid, from here you will see the shining crystals from top of the world.

" We await to serve you our service and share our experience with you "

HIGHLIGHTS OF THE TRIP:

- A climb to the top of the world
- 1 Climber: 1 Sherpa Guide
- 6 Bottles of Oxygen
- Full Board Service
- Challenging Mountain
- Stunning views from the Summit
- Experience the unique culture of the region
- Explore the diverse Flora and fauna

WHY CLIMB MT. EVEREST VIA NORTH WITH SEVEN SUMMIT TREKS?

- Highly qualified, professional, friendly, experienced climbing Sherpa guide, Kitchen staff, and Basecamp Manager.
- Well-equipped with climbing equipment and logistic support for base camp and higher camps.
- Safety is a top priority for us, and we take every step to minimize risks and ensure the well-being of our clients.
- We offer a variety of itineraries to suit different abilities and interests, so you can choose the option that best meets your needs.
- Hi-tech in weather forecast and communication
- 1 climbing Sherpa to each member (1 Member: 1 Sherpa)

ITINERARY:

DAYS	ITINERARY	DATE	MEALS	BOARD

INSURANCE:

There is a fine line between adventure and blatant risk. Mountaineering is an adventure trip that carries an intrinsic danger and the nature of travel implies things don't generally go according to plan, which is the reason why we require every one of our clients to get acceptable and proper insurance.

Due to unanticipated reasons, for example, injury, family issues, work commitments, etc., clients may need to cancel their trip before the start or during the expedition. Considering these factors, it's better to be prepared for the possibilities.

As mentioned in the Terms and Conditions of Seven Summit Treks, the agency is exempt from being liable for different expenses that may occur in case of different emergencies or unforeseen situations. In addition to that, a foreigner isn't allowed to purchase insurance on Nepali soil. Both facts point out the

requirement of a client to purchase an elaborate travel insurance plan in their place of origin that protects their interest in case of trip cancellation, helicopter evacuation, medical emergencies, other illnesses, lost luggage, theft, disasters, death, and so on.

You are free to pick your insurer however look for an arrangement that covers trip postponement and cancellation, rescue, and covers medical as well. Guarantee it doesn't have limitations on the height you will climb, prohibitions on the exercises you are embracing, or the places you will be visiting. Protect yourself with the right insurance so you can go on your expedition with peace of mind and focus more on your climbing.

Please make sure to send us a copy of your insurance policy before you start your expedition so that we can assist you in any case of an emergency.

Please find the details about insurance before buying the policy [here](#).

BOOKING & PAYMENT PROCESS:

If you intend to embark on an adventure through Seven Summit Treks Pvt. Ltd. you are required to book a trip 3 months before the trip. A three-month preparation period is necessary to ensure the maximum safety and satisfaction of the clients.

The client must dispense 30% of the total cost, at the time of booking. The advance amount will be used for the necessary booking of hotels, flights, guides, and porters and for receiving approval from governmental authorities. Another 30% of the total charge should be deposited one month before the flight to Nepal. The remaining 40% of the total charge should be paid after you arrive in Nepal, before the start of your adventure.

Name of the Bank	: HIMALAYAN BANK LTD.
Beneficiary Account Holder's Name	: Seven Summit Treks Pvt. Ltd
Beneficiary Account Number (USD \$)	: 01902853840022
